Item	Roll Size	Weight	Thickness	Tensile strength	coefficient of breaking extensio	Tear strength
Material Values	1000mm x 30M	510g/㎡	0.35mm	longitudinal 360(N/3cm)	longitudinal 3.0% lateral 3.0%	longitudinal 14N lateral 14N

Nonflammable transparent sheet ALLCLEAR LIGHT

High-transparency & Well-visibility

This is a nonflammable transparent sheet containing glass fiber foundation cloth.
It can be treated through thermal welding with welders.

●Material

Base cloth: glass fiber
Resin: polyvinyl chloride (PVC)

●Non-flammable

Fireproof products certified by the Japan Fire Retardant Association

●Well-Lighting

Light transmittance 90%

●Antistatic fnfh

Item	Roll Size	Weight	Thickness	Tensile strength
Material Values	1020mm x 30M	330g/㎡	0.24mm	longitudinal 600(N/25mm) Lateral 600(N/25mm)
