

Sound insulated "Non-clear" sheet Offwhite

Sound insulated Opaque sheet Thickness 1.3mm

Sound-insulated "Non-Clear" sheet (Sound insulated Opaque sheet t:1.3mm)

● **Material:**

Bath cloth- Polyester
Resin - Polyvinyl chloride(PVC)

● **Roll size:**

W970mm x L10.5M(tolerance ±0.5M)
Thickness :1.3mm weight : 2000g/m²

● **Sound-insulation effect:**

There is 20dB high sound insulation effect in 1000Hz frequency range!

● **Durability :**

Base cloth made by weaved highly strong polyester fiber laminated with particular composition resin.

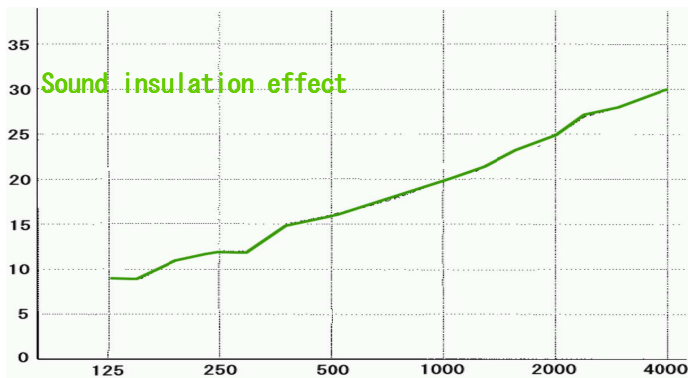

● **Flameproofness:**

It is flameproofness, passed defined standards of the Fire Service Act: Japanese fire defence law.

● **Color:**

Off white color easily matches ambient surroundings.

Sound transmission loss dB(as the vertical axis)

Central frequency Hz(as the horizontal axis)

Sound transmission loss							Tensile strength (N/3cm)		Coefficient of extension (%)		Tear strength (N)	
frequency	125	250	500	1K	2K	4K	Warp	Weft	Warp	Weft	Warp	Weft
transmission loss	9	12	16	20	25	30	2000	1900	20	26	600	700
